

The Federal Communications Commission

Dear The Federal Communications Commission,

I cannot afford to pay more for my wireless telephone service. Please reject a flat fee proposal for contributions to the Universal Service Fund.

If you do this people who make only a few long distance calls would pay the same as people that make lots of long distance calls. This is not fair!

My cell phone is used for safety purposes. If you pass this flat fee, I will lose this and hugh businesses will benefit. Please reject the proposal to have the USF collection system a flat-fee.

Sincerely,

Tom McBride
